Kayaking in the Hardangerfjord (Daily)

Jondal is most famous for the glacier called Folgefonna, but we are also famous for the fjord landscape. The absolute best thing to do in Hardanger is to experience the combination between the Glacier and the Fjord, the special thing in Jondal is the short distance between these two experiences, you can easily do both thing in one day! The best fjord experience is from a cockpit in a sea kayak. You will get the feeling of being a part of the fjord, it's impossible to come closer the water element without being wet.

Facts

Daily we arrange sea-kayaking trips on the Hardanger fjord. The trips start from our booking center Juklafjord situated in the middle of Jondal city center, 30 meters from the Hardangerfjord. After an introduction and adjustment of equipment, you are ready for a real fjord experience from the cockpit in a real sea kayak. We start with basic technics, how to paddle, control the kayak, and what to do if you fail and turn over and become wet. When you feel safe and can control the kayak the guide will start the trip to "Jonaneset" or other destination, depending on waves, weather etc. From the fjord, you will have magnificent view to the mountain and the fjord landscape.

Season

These kayaking tours are on request. The season is from 10th of June until 4th of September.

Total time length

3-4 hours. The total paddle tour is about 5 km.

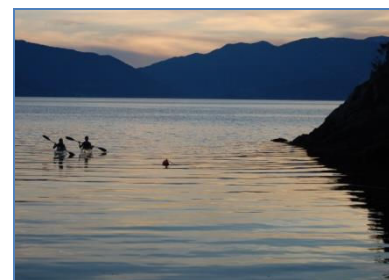

Equipment

All your clothing can be wet if you are unlucky and turn over; you should wear warm clothing for example wool. Bring also extra set of clothing so you can change after the trip. You should also bring a towel. It is possible to have a shower at Juklafjord after the trip if you want.

We provide all necessary kayaking equipment.

Price

890 NOK pr. person, price includes all necessary kayaking equipment.

Fitting for

All people above 12 years old and in normal conditions. The trip will be adjusted for the whole group.

Map (with approximately paddling route)

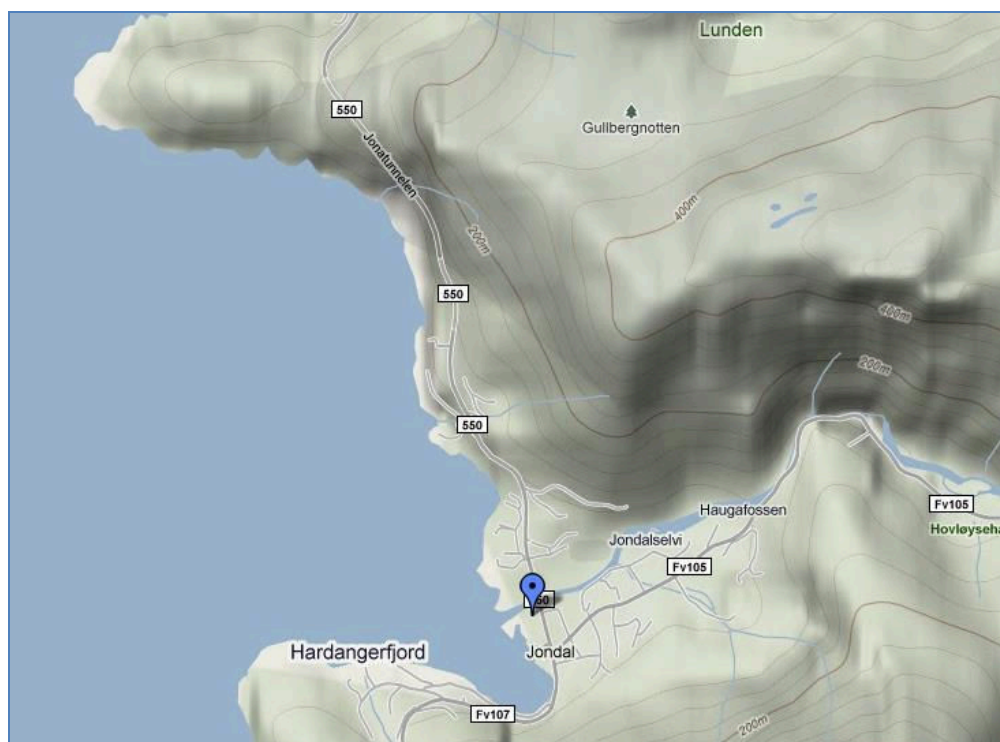

The exact route for the paddle tour may change from shown in this map

The exact route will be adjusted after the weather, the waves, and the group.

Meeting point

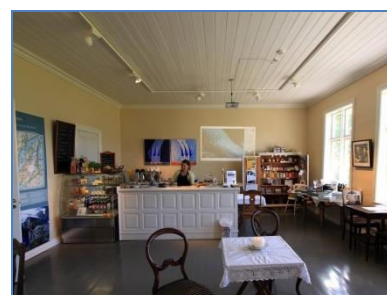

At our base Juklafjord in the middle of Jondal city center.

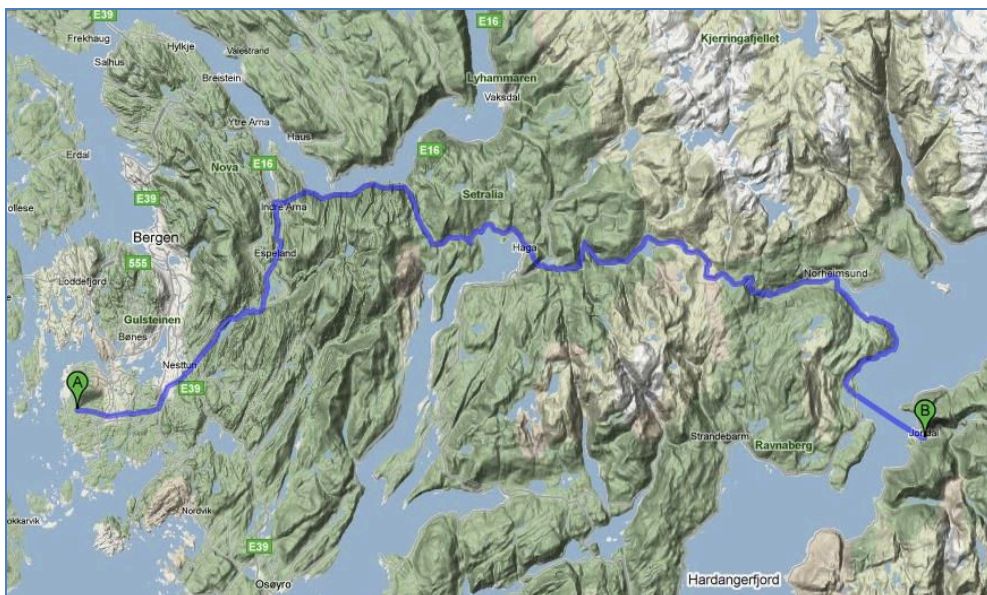

Juklafjord is located in the middle of Jondal city center, it's a white building cross the street for Coop (store)

Travel to Jondal

From Bergen with your own car, 1, 5 hours (80 km) to Tørvikbygd, then 20 minutes by ferry to Jondal. There is also daily bus from Bergen in the summer season, contact the bus company "Tide", "Skyss" or the tourist information in Bergen or our booking center Juklafjord for details.

Driving route from Bergen airport to Jondal, about 2 hours traveling time
